About the Company

- The CryptTouch project, based on the advanced TensorFlow 2.0 technology released in 2019, provides access to an improved AutoTrading and trading robots product through artificial intelligence.
- Teams of IT specialists and Traders have developed and tested AI algorithms that are able to execute highly liquid and high-speed transactions in trading and arbitrage pools.

A little bit of numbers

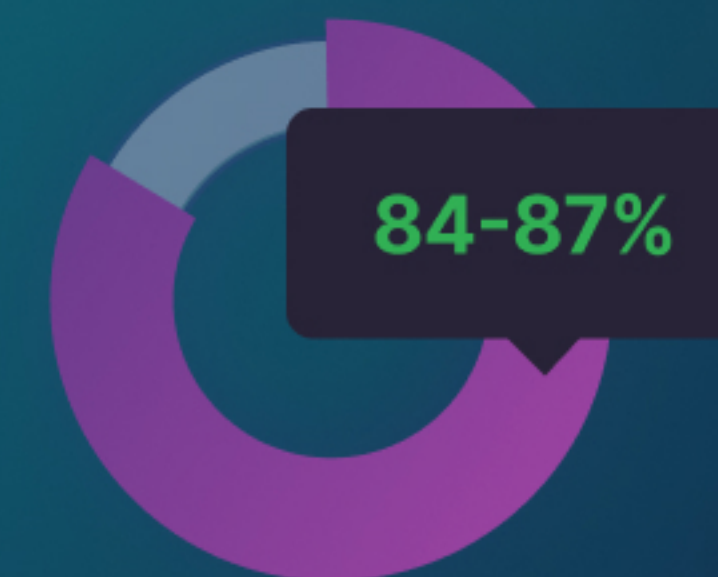

2022 year | We achieved a 76.4% success rate on our deals
↑ 76.4%

2023 year | In early 2023, the figure rose up to 81,7%
↑ 81.7%

Our goal

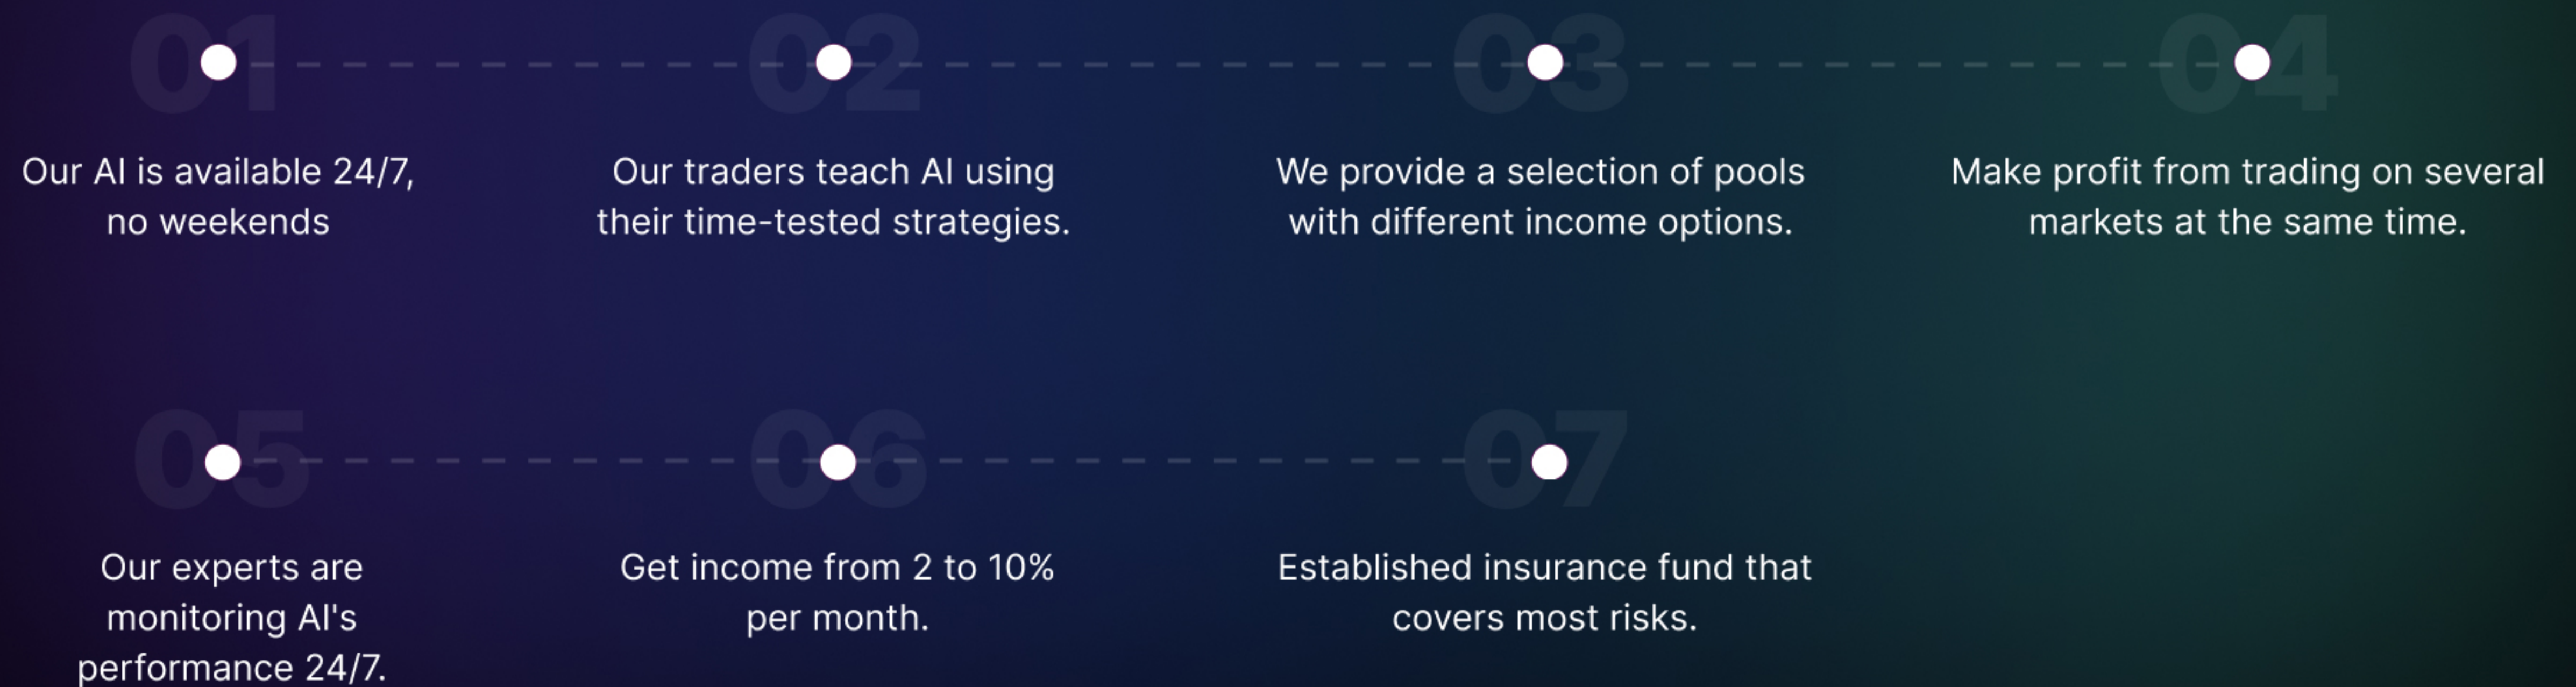

by the end of 2024

Why do we offer to share profits with you?

- Because the field of cryptocurrency arbitrage and crypto asset trading offers a huge number of opportunities. Every day startups and new crypto projects are being created that give you a chance to earn an attractive interest.
- Additionally, with your growth, we are growing too, and we have more than one more project planned.

We are willing to share profits in the ratio of 60 / 40 with our users.

Priorities of work with CryptTouch

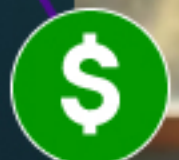

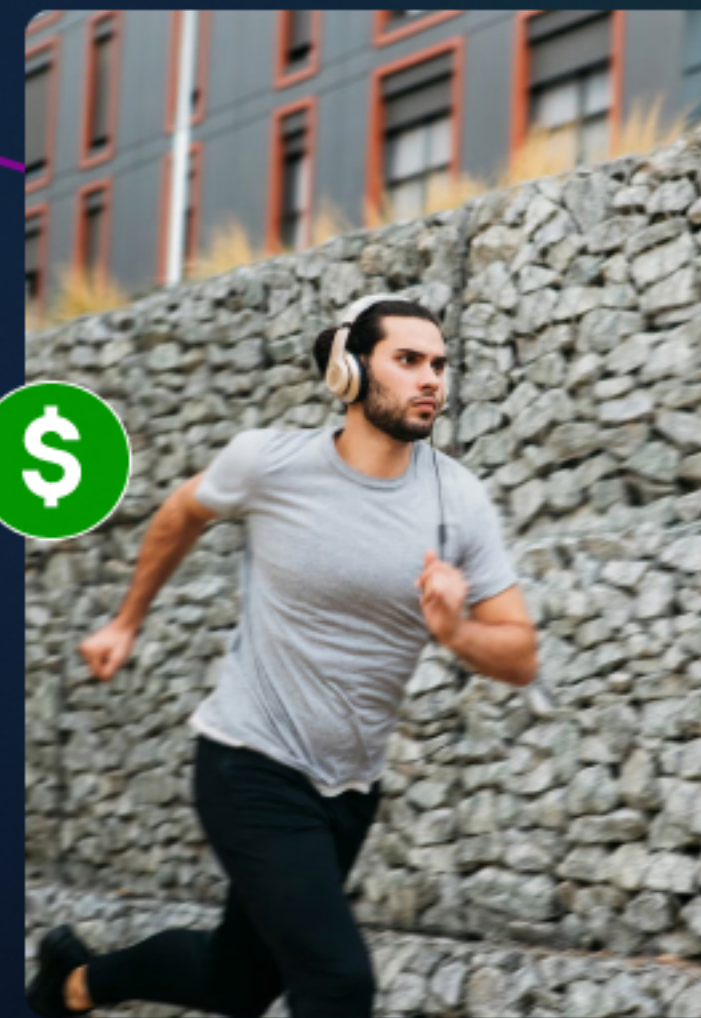

“CryptoTouch” is your companion

- that will maximize your free time while your money is safely stored.

Enjoy your life and simply generate income with the help of innovative technologies.

AI

Investment Product №1

Connect trading algorithms on spot trading:

- Available deposits from \$10 to \$100,000;
- yields from 2% to 7%;
- dividend withdrawal every week;
- access to training;
- access to participation in the affiliate programme.

If you choose trading algorithms, they work on the same exchange

Investment product N° 2

Connect arbitrage algorithms on spot trading:

- available deposits from \$100 to \$100,000;
- yields from 4% to 10%;
- dividend withdrawal every week;
- access to training;
- access to participation in the affiliate programme.

If you choose arbitrage algorithms, they work on several exchanges. For example, the algorithm buys on one exchange and sells on another, depending on a more favourable entry and exit price

Investment product № 3

Connect trading algorithms on futures trading:

- affordable deposits from \$100 to \$100,000;
- yields from 10% to 30%;
- dividend withdrawal every week;
- access to training;
- access to participation in the affiliate programme.

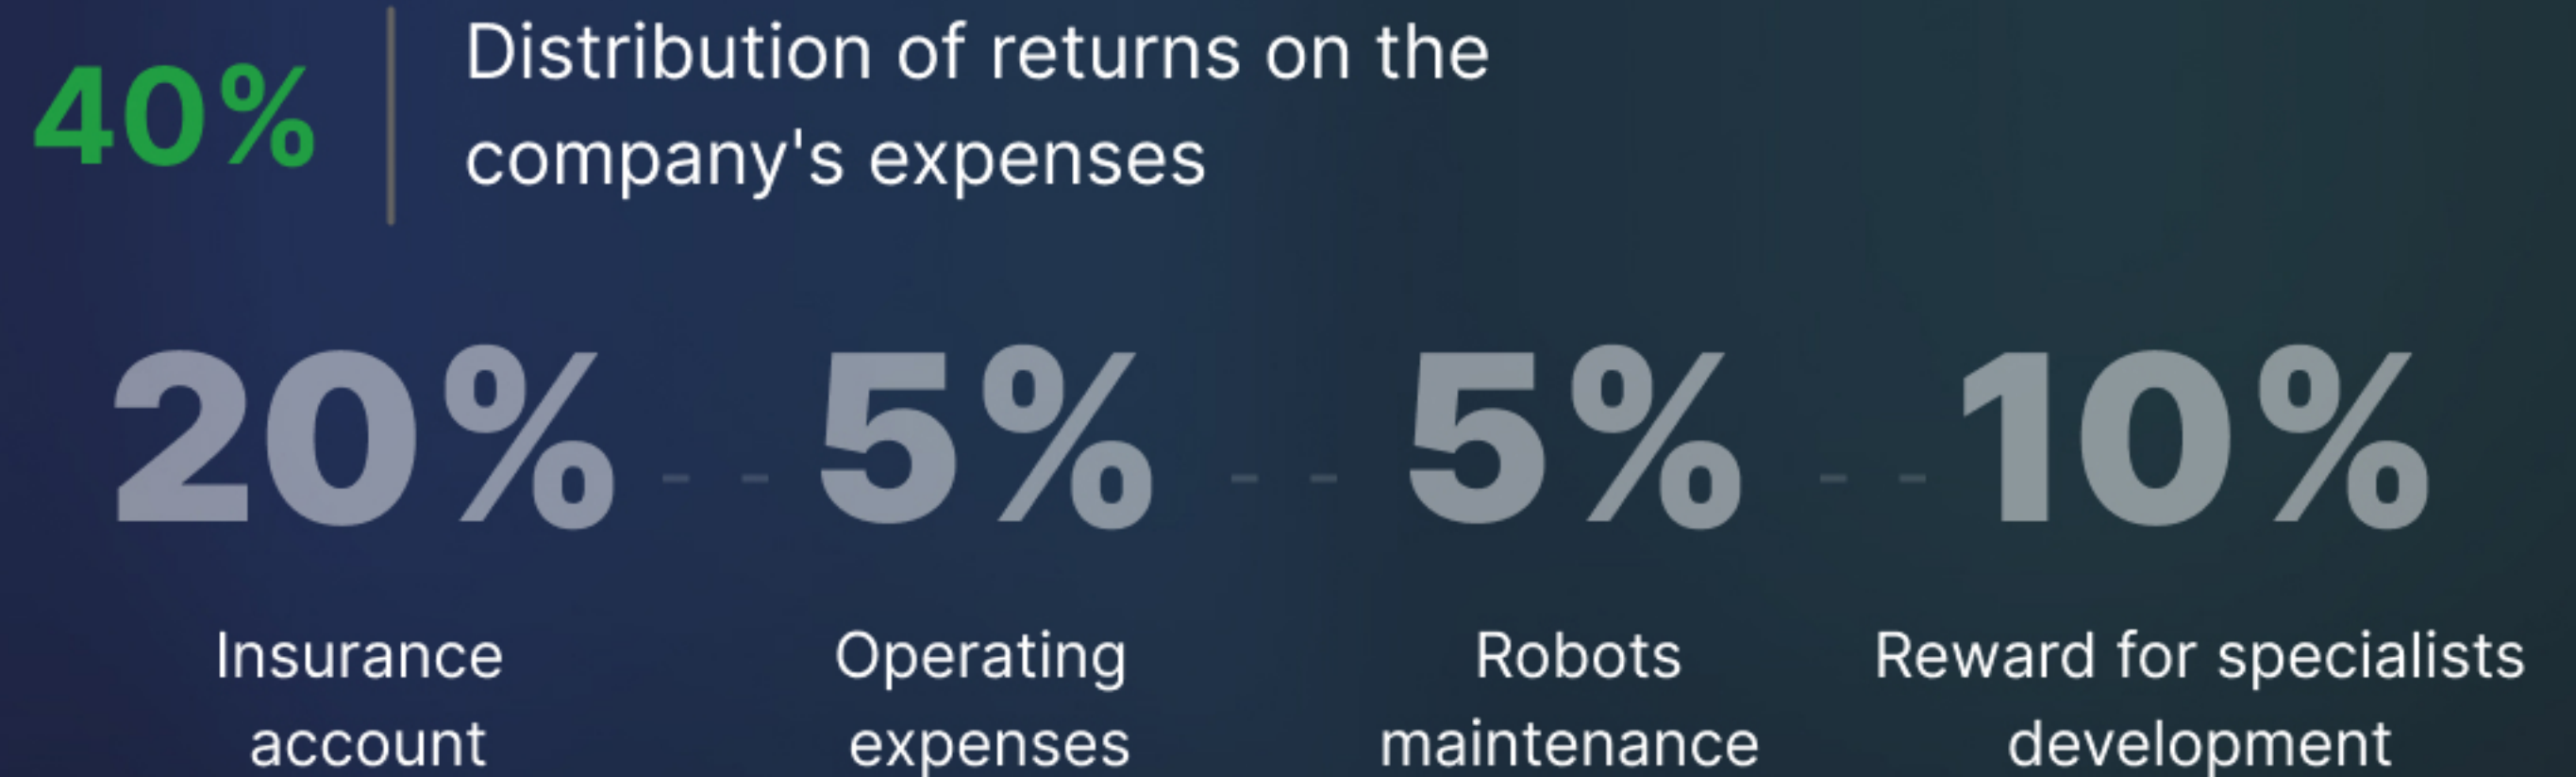

This product is risky, since all trading occurs on futures, where you can both earn a lot and lose everything.

The CrypTouch team recommends to use algorithms only on spot trading.

Distribution yields

With 100% of the yield comes distribution:

Insurance Fund

- Special open accounts and an additional cold wallet have been created by the CrypTouch team to minimize risk.
- From each return, a portion of the funds are sent to the insurance accounts for the safety of the trading pool.

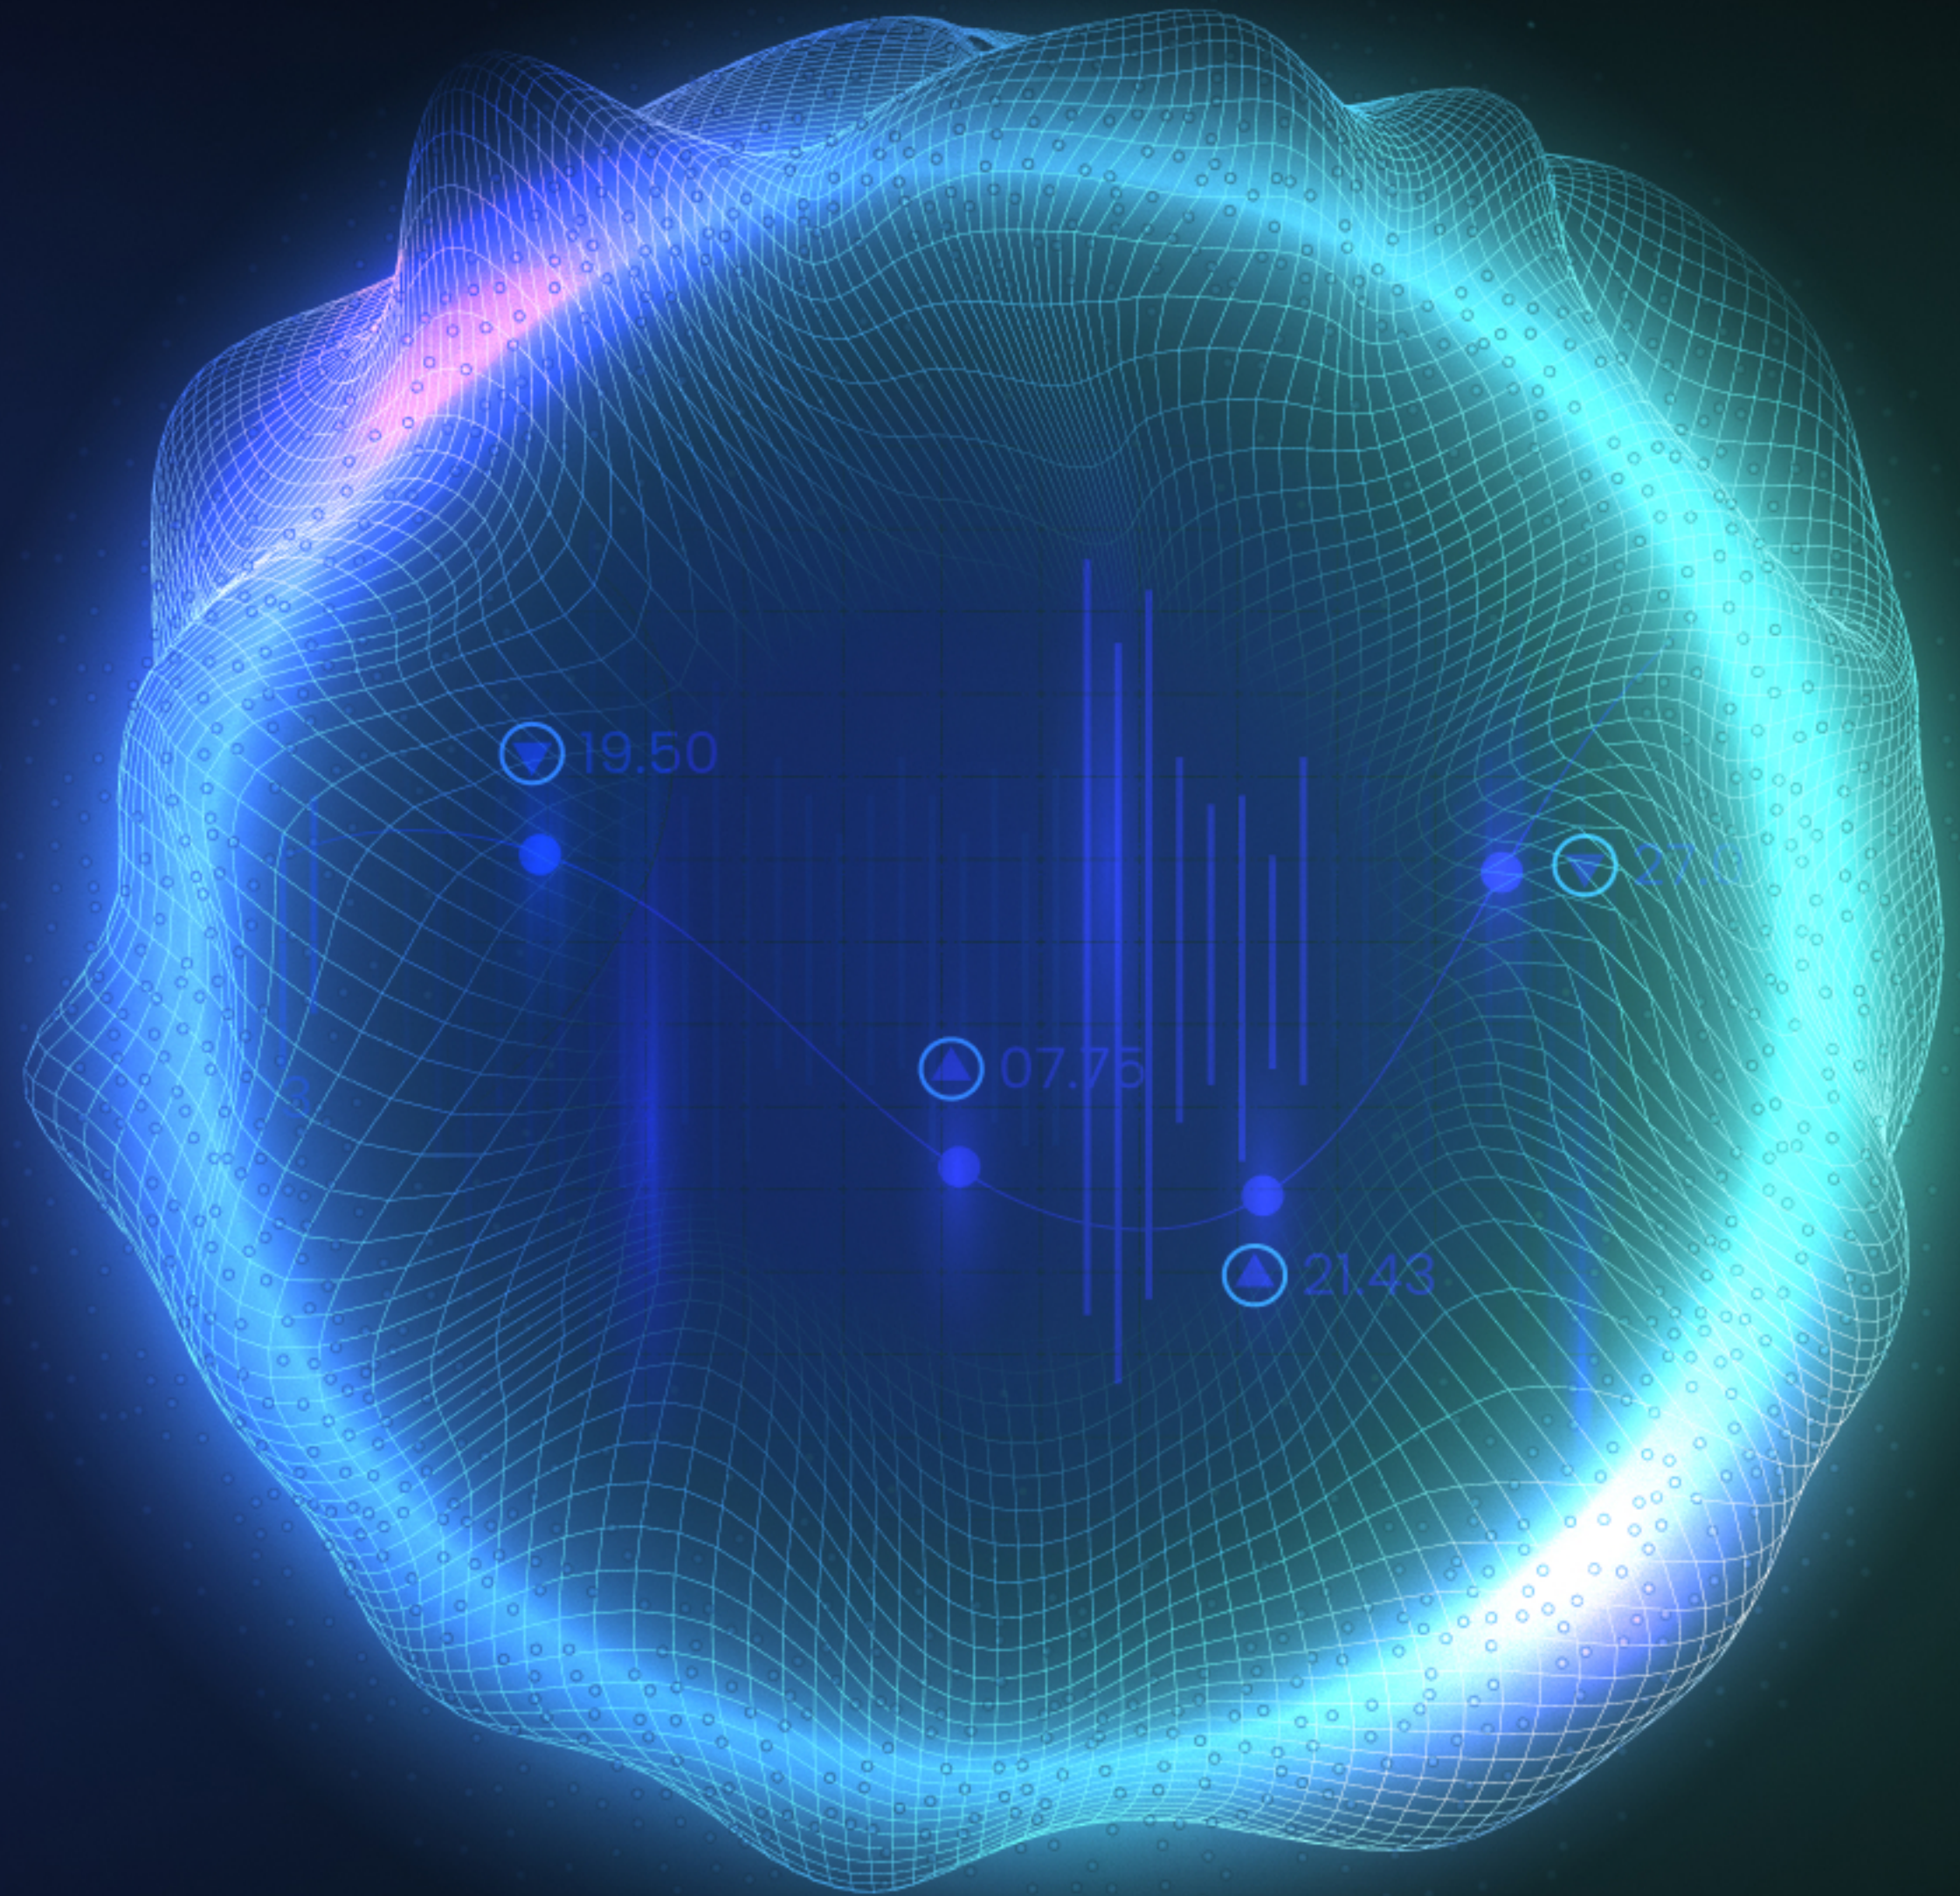

CrypTouch Development Map

2020
Initiation of work on AL to identify potential arbitrage opportunities.
